Recently Heddy and I ate for the first time at the Cafe Bonaparte. We were with a bunch of preachers and I had to be using my very best behavior...that is with preachers all around and a wife there to kick my shin if she anticipated I was about to stray. Anyway, when Barry Brunson announced they had some 9 or 11 or maybe 14 servings of Prime Rib that had been simmering all afternoon, a bunch of us took him up and we er-subscribed the prime rib. That is-we ordered more than was n the kitchen. When that news was announced I tried to show the kitchen. When that news was announced I tried to show those preachers and their wives just how good hearted I was an up that they all did.

\*\*\*I've noticed a big difference to get something else. Well. James Brock (that Bantist offered to eat something else. Well, James Brock (that Baptist from Westside) had just heard me explain about hearing raves about Bill Hackett's Prime Rib for months while they were remodeling the building. I had told of already having my mouth ready to bite into a hunk of that good cooking. Jim Brock decided he would let me have the Prime Rib and he would eat something else (it turned out as good or better than mine, he said) and else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned out as good or better than mine, he said) and something else (it turned ou when his charming wife, Linda, looked at me and said, "Jimmy will eat something else" ye ole editor hushed and kept my heart set for the originial choice. The description of the school grounds, and this is a good rule because a lot of people have been getting hurt on the school grounds.

Our County Commissioners accepted a plot of land for an Enterprise jail Tuesday, but not without disagreement. We have rouble understanding how to publish a newspaper and surely don't understand the way politicians think, but are usually puzzled over the strong unity between the three District 4
commissioners and the Probate Judge James Sawyer the day the
resolution for selection of a new site was made, and the obvious
upset of Sawyer and Commissioner Bennie Beckham when they
while. spset of Sawyer and Commissioner Bennie Beckham when they oted on a site, even after the deadline that the three from District 4 had set and the Judge had voted for to break the tie. We often hear of those in the background that "pull the strings" of elected officials and our County Commission is not immune to his speculation. If we listen to all the talk, we would believe that no elected official moves without his string being pulled and sometimes the rumor mills have the so-called "different sides" each pulling the same politician. Under this theory, us average folks never get any say-so, but I have to think as Commissione Don Smith said about him being a farmer, living out in the country and getting calls and visits from a lot of folks other than

neaning those from District One, Two and Three voted for the site to "kill" the petition for one courthouse. I guess he didn't think about the outcome being the same if those three had abstained from voting because the construction would be in in February 1978. another district. (the vote would have been 2-1 and the motion would still have carried).

The City of Elba apparently will not be buying the land off Smith Avenue for a landfill. A petition from land owners in the area opposed, city officials felt the site was too high for the usable land, etc. Frankly I hope they leave the landfill business to the county. The expense for operating is much higher than the expense for dumping in someone else's hole. It would be better, since we are already paying the county, if we hauled all our trash and garbage to the county landfill instead of burying a lot of it across from the airport and constantly staying in trouble with the

When Elba played Eufaula in regular season football several years ago we had some comments to make that offended some Eufaula fans. We never did retract our statements and Friday night all our reasons came back as fresh as if they had been the week before. However we do have praise for the Eufaula fans. They enjoyed the game, yelled for their team, but at the same time showed true sportsmanship and respect for the opponent. When Elba had a player hurt, the Eufaula fans gave him applause for his efforts; when the Elba band was performing, hey showed respect and admiration for the performance.

We must congratulate both the Zion Chapel and Enterprise football teams. There is still a possibility Coffee County could have two state football champions. Both teams will be playing at home this week and we urge all our fellow football nuts to pick

## MT ZION BAPTIST CHURCH

Mt. Zion Baptist Church is located near Mixon's Cross Roads on the Victoria Road, about one mile West of the Folsom Bridge over Pea River on State Highway 167. The church was constituted in 1904, and was received into the Pea River Baptist Association in their annual meeting at Calvary on November 5, 1904. A little later the church joined the Haw Ridge Association and remained in that association for several years, possibly until the fall of 1908 when it was received into the united Coffee County Association in

its organizational meeting also at Calvary. Tradition says that preaching services were held in the Mt. Zion Community as far back as 1893 by itinerant preachers. They would speak from a buggy and the congregation would either stand or sit around under the trees. Orginially the Baptist Church building was located on the

West side of the cemetery, and there was a Methodist church on the East side. On August 9, 1935 the Methodist sold their building and lot to the Assembly of God group for \$175.00. The Assembly of God congregation later moved to another location, and Mt. Zion bought their lot on December 7, 1950 for \$50.00. In 1953 the Mt. Zion building was torn down and rebuilt on the purchased lot East of the Cemetery.

The records of the establishment of the church have been lost,

and we have no definite record as to whom was involved in its organization. T. C. McDurmont was listed as the first pastor, and probably had a part at least in starting the church. He was there in 1904 and for several years after. At the beginning services were held on Saturday and Sunday mornings once a month. Later the Saturday service was changed/ to the evenings. The church remained quarter-time for many

years. For the past fifteen or twenty years services have been held each Sunday. For several years around 1910 the church failed to report to he association and may have been inactive, or without a pastor. G. E. Parker was pastor in 1913 and served for about three years. He was followed by Gordon Andrews. The church also failed to

J. L. Hogan was pastor in 1920 to 1922, and was succeeded by M. J. Walding of Ozark. Apparently the next pastor was L. pastor for a year, and was followed by W. J. Willis also for one year. Plant was called again for 1929-1930, and perhaps longer as the pastor was not listed for 1931-32. B. F. Pierce was pastor in 1933. After Pierce, W. T. Plant was called. This was evidently his first pastorate, as Mt. Zion requested his home church, Woodland Grove, to ordain him. He

served Mt. Zion for two years. B. F. Lowery served a total of at least three times for several years each. His other terms of office began in 1945, and 1961. Around 1940 C. G. Kerby of Opp served as pastor, and was succeeded by Huey Ziglar who served for about four years.

Some of the early Clerks were J. Boutwell, I. A. Martin again,
J. H. Bachelor, Ewell Blanton, I. A. Martin the third time, H. D. trickland, C. H. Moseley, and Brantley Williams.

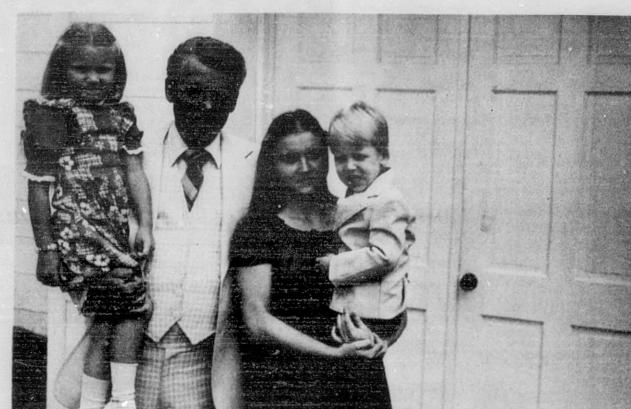

When this writer came as Director of Missions for the Coffee County Baptist Association a number of our churches including Mt. Zion did not have an active Sunday School. Arrangements were made to reorganize the school at Mt. Zion on the First unday in April of 1947. At that time the Baptist Sunday School Board in Nashville was furnishing free literature for new Sunday community the week before the school was to start

It had been raining for several days and the dirt roads were very muddy. However we made it fine until we reached the Pea River bridge. As we topped the old wooden bridge we saw that the flooded river was running across the road for about a hundred yards beyond the bridge. There was no way to tell the depth of the water by looking. So we pulled of our shoes and rolled up our trousers and waded through. The water reached just below the knees for most of the way, but one spot was a little more than knee deep, but we decided that by getting a good start and keeping the car in low gear we might make it. So we backed up on the bridge and then ploughed through. As there was a cross roads just beyond the church we felt that we could get out by a different route. However there were muddy hills on the other three ways, and so we had to come back through the flooded overflow of the river. This is indicative of the kind of roads people had to travel in the winter to get to church services just a

Pastors of Mt. Zion in recent years have been John Griffen, Sam Smith, Johnnie B. Spurlin, Robert Ernest, C. H. Smith, a native of Ohio. The latter two were students at the Baptist Bible Institute in Graceville, Florida. The next pastor was Robert D. (Bob) Kelley, who was ordained by the church on October 12, 1958. He passed away several years ago in Enterprise. Others were Gary Carter, who was ordained by the Daleville Church, Larry Mead a serviceman at Fort Rucker, who served until he was transferred to Fort Benning. Charles Black of Enterprise was

White, the present pastor. A very outstanding service was held when Sam Smith was pastor. A fish-fry and fellowship period was held on Saturday, followed by a sermon by the pastor in the evening. He spoke on the subject: "Prayer Life". Twenty people made professions of faith in Christ and joined the church. Most of them were baptized the next day at the nearby Pea River. The church evidently secured electric lights in 1936 as they

Quite a few ministers have served their first pastorates at Mt. Zion; and the church requested their ordination. Most of those listed below are included, if not all of them. W.T. Plant, Joel Moseley, John Griffen, Bob Kelley, Jack McCumber, Robert Ernest, C. H. Smith, Gary Carter, Larry Mead, Danny Boutwell,

and Comer Harrison. Gas heat was installed in the building in 1953 and the ilding was screened in 1960. Later the interior was panneled. Many improvements were made during the pastorates of Charles Black and Jack McCumber. Restrooms were installed and a four-inch well was drilled, and other additions and improvements were made in the building. While Comer Harrison was pastor new pews were secured and the floor was carpeted. Later a spire

At one time there was a rather unusual occurrence in the church. For unknown reasons the pastor asked all of the church officers to resign and to turn in their books. On the next Sunday The officers complied on the spot, and the church proceeded to elect new ones. It was remarkable that the pastor could do this without being himself discharged. We must only speculate as to his motive. He may have felt that they were failing to do their my had not been done, so he reiterated his demand

jobs, or it may have been a stratagem to replace one or more of them. Suprisingly it seemed to have worked.

The church seemed to have reached its largest attendance when Sam Smith was pastor in 1953 when the Sunday School reached an enrollement of 65 and Training Union 76. Although Mt. Zion is a small church it seeks to maintain an active program. Billy Paul McCollough is leading the Sunday School, and J. P. Parker is Director of Church Training. Efforts are made to contribute to the social life of the community, and fellowship events are scheduled from time to time. Over a period Mr. Tom Sexton of the church cut the hair of patients in the Elba

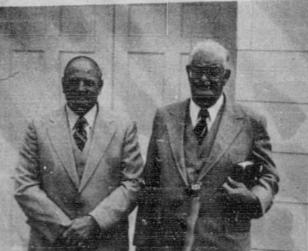

Nursing Home monthly. Buster White the present pastor was active in the Shiloh Church of Coffee Association before being called to Mt. Zion. He is a native of Cullman County. As a boy he attended school in Etowah County. After high school he attended Gadsden State Jr. College, and the University of Alabama at Birmingham. He spent Thirteen years in the U. S. Army, was captured in Korea, and spent 33 month in a Korean Prisoner of War Camp.

His wife is the former Patti Lynn Blackmon of Elba. They

have two small children, Tanaye Lynn, and Daniel Braxton. Mrs. White is active in the church.

Eufaula has a good team, and could clean up their act and be a true championship club, but until they do, they'll be hated by opposing teams and have trouble scheduling 3A teams! I was opposing teams and have trouble scheduling 3A teams! I was surprised last Friday night to find Eufaula still playing as dirty, and still showing a lack of class. You'd think a state championship team would be a perfect example of sportsmanship and be a team young people could idolize and look up to. If our young people try to copy the play of Eufaula, we're all in trouble. The Eufaula players were getting in cheap shots all night, trying to start fights and playing a "dirty" brand of ball all night. The thing that got to me the most was the team's lack of class. Throughout the game, the Eufaula players made obscene gestures and shouted profanities at the Elba fans, and this is something that can be blamed directly on the team's coaches! It is up to a coach to instill a sportsmanlike attitude in his players, and a coach must have class before his team does. It seemed to me that the Eufaula coaches had no control over their players at all. When a fight broke out between two players late in the game, me that the Eufaula coaches had no control over their players at all. When a fight broke out between two players late in the game, the Eufaula bench emptied out onto the field, while the Elba coaches prevented any players from leaving the sidelines, and then took our team off the field until order had been restored. A Enfault player (and one of their best defensive players) came to the Elba sideline late in the game and attempted to provoke an Elba player into fighting. After the game, the same player went after an Elba player as they left the field, only to be stopped by a quick-thinking fan. It's not their team's fault that a drunk pushed an Elba player against a fence after the game, but it all goes back to a spirit of poor sportsmanship caused by the team's style of play

of play.

Eufaula has an outstanding team and could still win, even if they cleaned up their act. But, I guess they like their poor reputation, because they haven't done anything to change it!

I think Elba's Coach Mack Wood said it best after the game when he said, "If that's what you've got to do to be state champions, we don't want it."

Friday night, but just couldn't quite put it all together. True, Elba's defense gave up some long runs and a lot of points, but they played a good game and gave the offense a lot of good chances to score. Elba's offense started drives at Eufaula's 21, 23, 44, 32, 10 and 48-yard lines, but couldn't score but 7 points - and we got whipped! Everybody played hard -- it was just one of

## ELBA TIGERS OUSTED FROM 3A PLAYOFFS

Eufaula's ability to break the big play, and Elba's wasted no time in scoring the inability to take advantage of numerous turnovers was the story of the game last Friday night when the Tigers fell to Eufaula 34-7, in the opening round of the Class 3A football playoffs.

Eufaula won the toss and began a drive into Eufaula territory. The big play in the march was a 23-yard run by Dale Stinson, but the drive scrimmage Anthony Petty got the ball on a wingback-reverse and sped 69-yards to paydirt. The extra-point failed, but with only 39-seconds gone in the
